

## PORTA-GRAZER DIRECTIONS FOR USE

- 1) Stand the flake of hay on end flat against side wall of the barrel
- 2) Push down rolling the flake over to the bottom on the opposite side
- 3) Insert the feeding pan with the hole side down
- 4) Top of feed pan must be at least 1" below the barrel opening

Begin by using the Porta-Grazer as a secondary source of feed until your horse becomes accustomed to grazing from the Porta-Grazer.

Thank You

Walt
